9 February 1956

Dear Mac:

At our Suppliers Meeting in early December 1955, we brought out to you a letter setting forth the various immunizations, etc. which would be required of personnel destined for overseas operations with Detachment A.

In the same letter, we requested a firm identification of those personnel who were to comprise the initial crews for Detachment A and requested that these names be submitted to [] with a copy forwarded to Project Headquarters for our records. Our records do not indicate that we have ever received the identification of your crew for this Detachment, and we would appreciate receiving this as soon as possible. We would also appreciate receiving any additions or deletions to this list which may prove to be necessary in the future as soon as any such addition or deletion is proposed.

25X1A

We are very anxious to initiate unit training for Detachment A [] and should expect that personnel for Detachment A will be more or less continuously [] until actual deployment. It is also contemplated that on or about 1 March 1956, the Detachment Commander will assume operational and administrative responsibility for the personnel of his Detachment - to include your crew. By this we mean that personnel designated by you for the Detachment would be under the immediate supervision of your Detachment A supervisor who would, in turn, report to the Detachment A Commanding Officer.

25X1A

Sincerely,

Dick
